

BHS/IB/SA Parents & Guardians,

We have a plan to help you and your student plan for their future beyond High School!
ACTION REQUIRED BY FRIDAY, MAY 19 to access this valuable FREE resource.

BHS/IB/SA are offering an invaluable online resource for college and vocational school planning based on your student's up-to-date academic performance and career interests. [Overgrad.com](https://www.overgrad.com) will serve **8th-12th graders** immediately and is a great incentive for staying on track to meet career goals and university plans.

Overgrad will provide specific, personalized information for your student as a result of their uploaded data and interests. We know this opportunity will motivate our students!

- Unweighted GPA, Weighted GPA, ACT and/or SAT
- Earlier national exams for younger students (Aspire, PSAT, etc.)
- College and technical school entrance requirements (in state and out of state)
- GPA/ test score forecasting for acceptance to your student's designated schools of interest
- College of interest cost data with career (of interest) salary range information

The more data that is uploaded, the more accurate the program will be in matching your student to their goals at a university, college or technical school.

In order to participate in this valuable program, **parents MUST sign and return the attached document by Friday, May 19** to allow the school to upload academic data. We will distribute additional information to the students once we receive their waiver. There will be informational parent meetings, webinars and other resources available.

The BHS PTSA and school administration have validated the student data will not be purposely sold or redistributed by the vendor. We have also researched their site security measures and regard them to be current with contemporary standards. We encourage parents read and understand Overgrad's privacy policy [here](#), prior to signing this waiver.

BHS PTSA and Friends of IB HIGHLY RECOMMEND this tool as a useful resource in college and technical school planning. Please take advantage of this outstanding opportunity. BHS/IB/SA is the first Polk County Public School to be allowed to pilot this project, we are excited to make it a success for our students.
